

# WATER DISTRIBUTION *SYSTEM OF THE YEAR AWARD*

---

---

GAWP would like to recognize individual Water Distribution Systems for their outstanding performance. These awards will be broken down into three (3) categories - Small, Medium, and Large - and will be presented at the GAWP Fall Conference in Dalton, GA on November 18-19, 2008.

If you would like to nominate a system, please fill out the nominations form and forward it to Gary McCoy by **Friday, August 22, 2008**. Each nominated system will receive a packet that will include the evaluation form and the evaluator's guide. The system manager should review these in order to gather the appropriate information for review during the evaluation.

This is a great opportunity to recognize our Water Distribution System Operators. Also, this program can assist in developing standards in this area of our industry. ***We know that there are outstanding systems in our state - send in your nomination form today so that they can be recognized!***

## Nomination Form

Name of Utility: \_\_\_\_\_

Mailing Address: \_\_\_\_\_  
\_\_\_\_\_
